## **Work Group 3: Brain Imaging and Neurophysiology**

CA 18138 Riseup-PPD

**Baeken Chris**

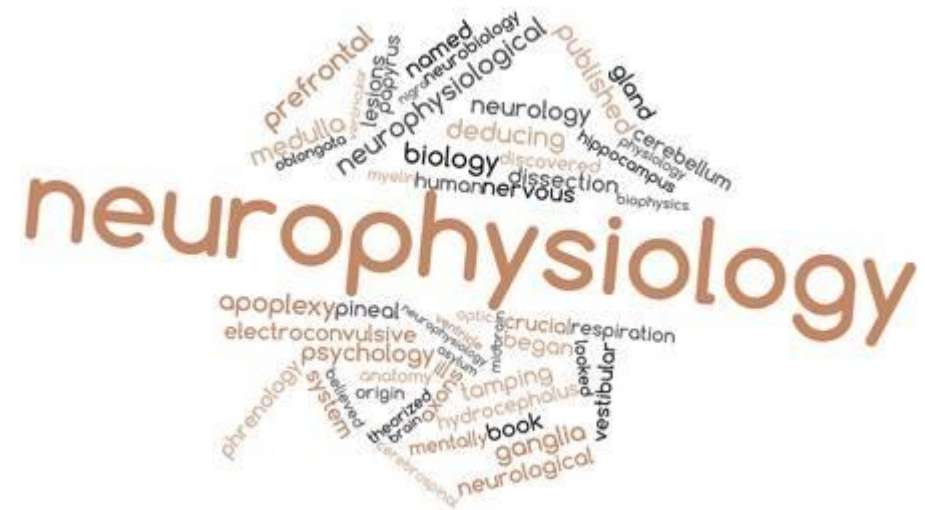

# 1. WG structure & organization

Updates

# WG 3 participants

- New participants joined to our WG during this 1<sup>st</sup> year...
- We are now:
  - **17** participants (with different levels of involvement in tasks)
  - With diverse **backgrounds and expertise**

WG1  
WG2  
WG6

## 2. Current status of work

# *Proposal first meeting Coimbra Portugal*

## Survey Questionnaire

### **Goal:**

To get an overview of COST participants availability to PPD patients, Brain imaging and Neurophysiology equipment

### **Status**

20 % response rate

Not so many centers seem to treat PPD/ have access to Brain imaging - neurophysiology

**We will not focus anymore of this questionnaire**

# 2nd Year of the GP - plan

## **Deliverable 1: 2 *Work shop organizations***

- Goal: to introduce and to inform COST WG members on the possibilities of Brain imaging methods and Neurophysiology in PPD related clinical research and applications.
  - Brain Imaging in PPD (Izmir, Turkey)
  - Neurophysiology in PPD (Tel Aviv, Israel)

## Deliverable 2: Task force to implement Brain imaging in PPD Clinical Research

- To deliver a study protocol proposing multisite Functional Brain Imaging protocol to evaluate PPD and treatment (preregistered study?)
  - Work in progress to be continued in the 2<sup>nd</sup> year of the GP

# Announcement

## 1. Change WG 3 co-leader

**Mica Ruttorf**

**Marie-Anne Vanderhasselt**

WG 6 dissemination

## 2. (Re) – election leader – WG 3 (co) leader in Tel Aviv
